GO-RAFT SINGLE SEAT LIFERAFT

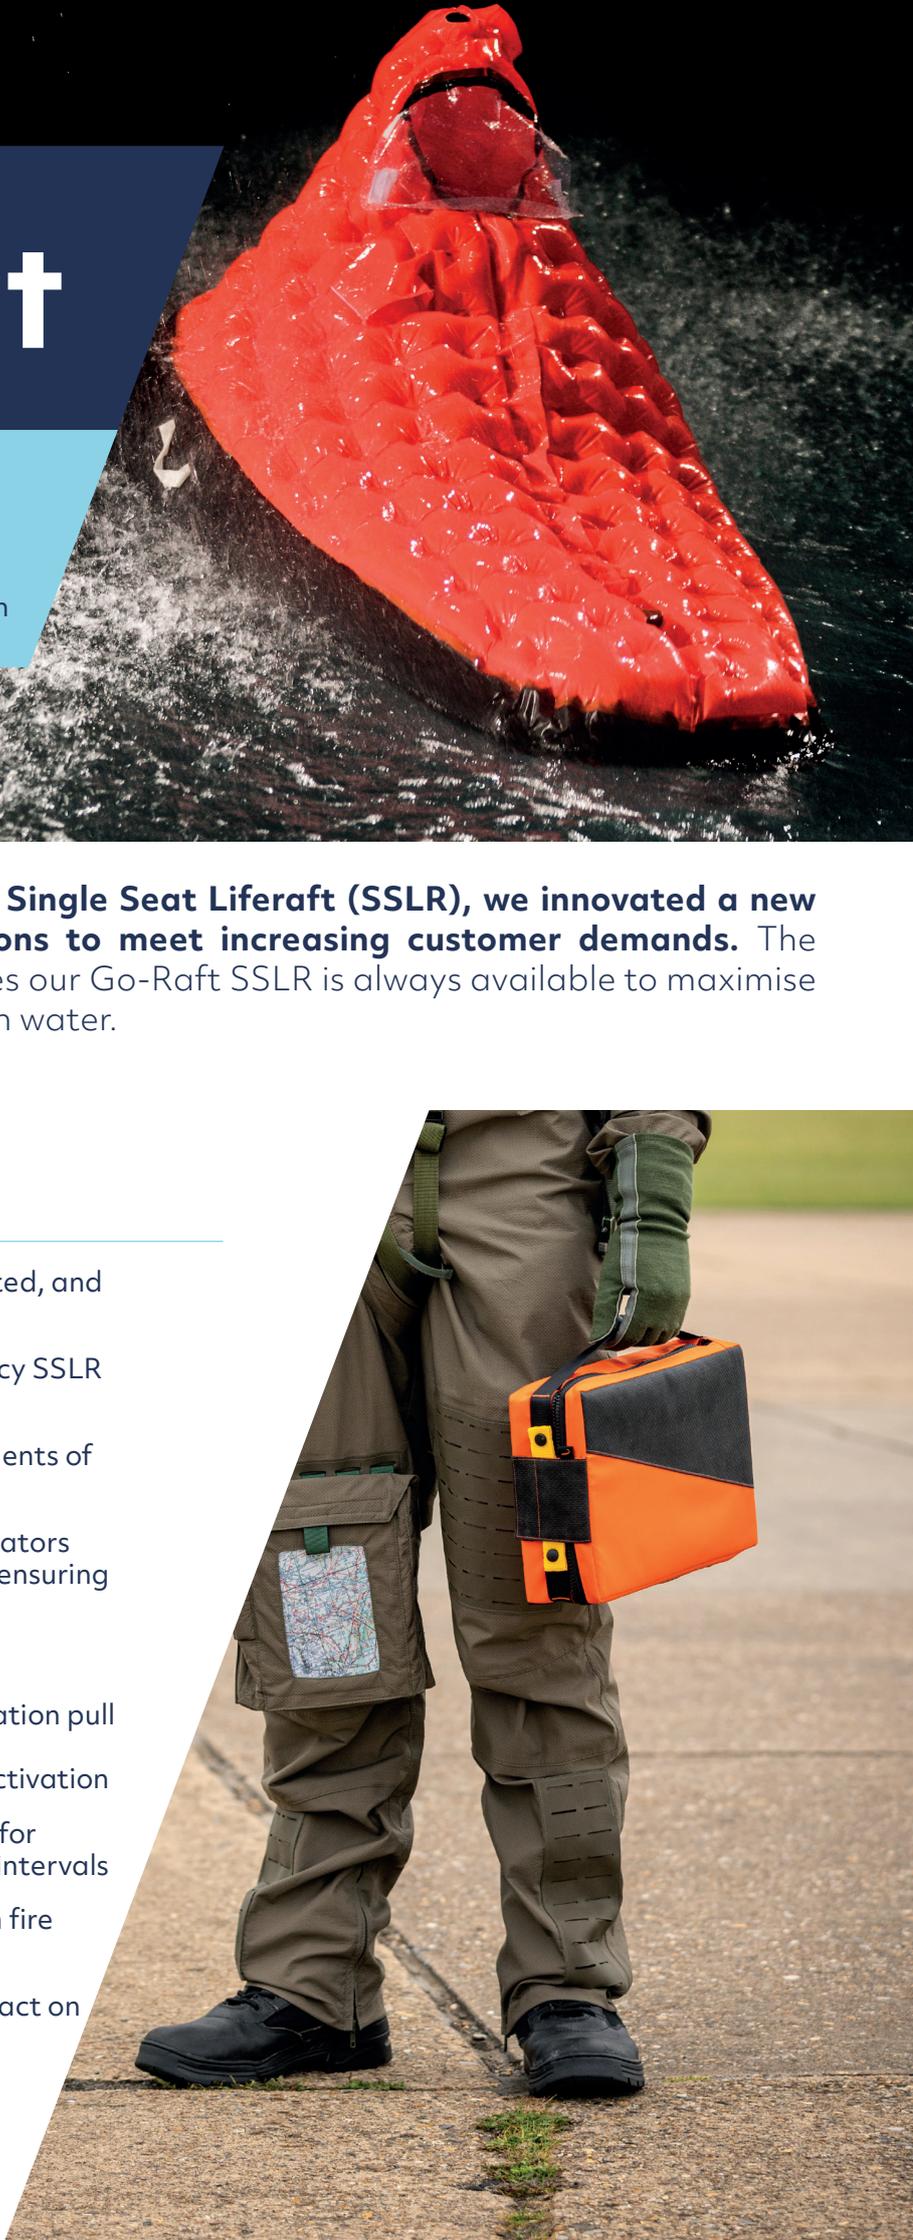

Compact protection in a sea survival situation

Utilising our certified Aerolite One Single Seat Liferaft (SSLR), we innovated a new concept in liferaft stowage solutions to meet increasing customer demands. The protective and compact valise ensures our Go-Raft SSLR is always available to maximise your safety when operating over or on water.

BENEFITS

- ⦿ Proven reliability - Utilising the tried, tested, and certified Aerolite One
- ⦿ Up to 50% less packed volume than legacy SSLR designs
- ⦿ Our SSLR meets or exceeds the requirements of US MIL-PRF-81542D
- ⦿ Incorporates low-profile twin manual inflators with two 120g disposable CO2 cylinders, ensuring a sealed 'no-leak' system
- ⦿ "Zero Maintenance" inflation system
- ⦿ Consisting of a two-stage inflation activation pull handle to inflate the raft to avoid inadvertent activation
- ⦿ Our Aerolite One is soft vacuum-packed for minimized volume and extended service intervals
- ⦿ Outer valise material is constructed from fire retardant material to ensure protection
- ⦿ Minimised size and weight to reduce impact on operations and stowage requirements

//Designed from the tried and tested Aerolite range //

GO-RAFT SINGLE SEAT LIFERAFT

TECHNICAL DATA

Pockets	Internal equipment stowage pocket Stabilising water pockets and user deployable sea anchor/drogue
Weight	1.93kg / 4.26lbs (excluding inflator) 3.23kg / 7.0lbs (including low profile inflation system)
Packed Volume (approx.)	337in ³ (including low profile inflation system)
Buoyancy	Oral inflation tubes for inflation of canopy and floor and topping up main buoyancy
Service Interval	Subject to storage conditions, inflator type and packing configuration, ask for more details
Valise Dimensions	310mm / 12.20in x 210mm / 8.26in x 85mm / 3.34in

INDUSTRY LEADING

25% lighter than legacy single seat life raft designs

50% less packed volume than legacy SSLR designs

Valise available in orange or green
