MK42T
FLIGHT JACKET

FastJet Torso harness compatible

Our MK42T fast jet flight jacket is fully compatible ejection seats that utilise the PCU-15A/P & 16A/P torso harnesses. It is designed for front line and training aircraft use to offer exceptional levels of protection.

BENEFITS

- Torso harness compatibility – for use with PCU-15A/P and PCU-16A/P
- Single and Twin Chamber Flotation – Automatically inflated chambers & self-righting within five seconds
- Modular Pockets allowing mission specific equipment & emergency beacon stowage
- Wide range of sizes
- Flame retardant and abrasion resistant for additional protection in emergency situations
- Mounting facilities – provision for oxy terminal blocks including CRU-60/P, CRU-94/P or CRU-120/P

"Setting the standard for in-water performance and survivability"

MK42T FLIGHT JACKET

TECHNICAL DATA

Buoyancy Single Chamber	180N
Buoyancy Twin Chamber	320N
Inflation Mechanism	Automatic inflation including 40g cylinder and inflation mechanism for each chamber
CO2 Cylinder	Carbon Dioxide. 40g, disposable
