## MK21 CREW LIFEJACKET

The MK21 Crew Lifejacket is designed to provide critical emergency flotation for aviation crew members during aircraft ditching situations. Backed by our five decades of experience and over 1 million lifejackets produced, this lifejacket offers unmatched reliability, making it the trusted choice for leading aviation organisations around the world.

## BENEFITS

- ⦿ Engineered specifically for aviation crew, ensuring rapid deployment and effective flotation during emergency water landings.
- ⦿ The single chamber automatically positions the wearer face-up, ensuring safety even if unconscious.
- ⦿ Lightweight and compact, the MK21 Crew Lifejacket is easy to store onboard and quick to deploy during emergencies.
