## BACK-RAFT SINGLE SEAT LIFERAFT

Compact protection in a sea survival situation

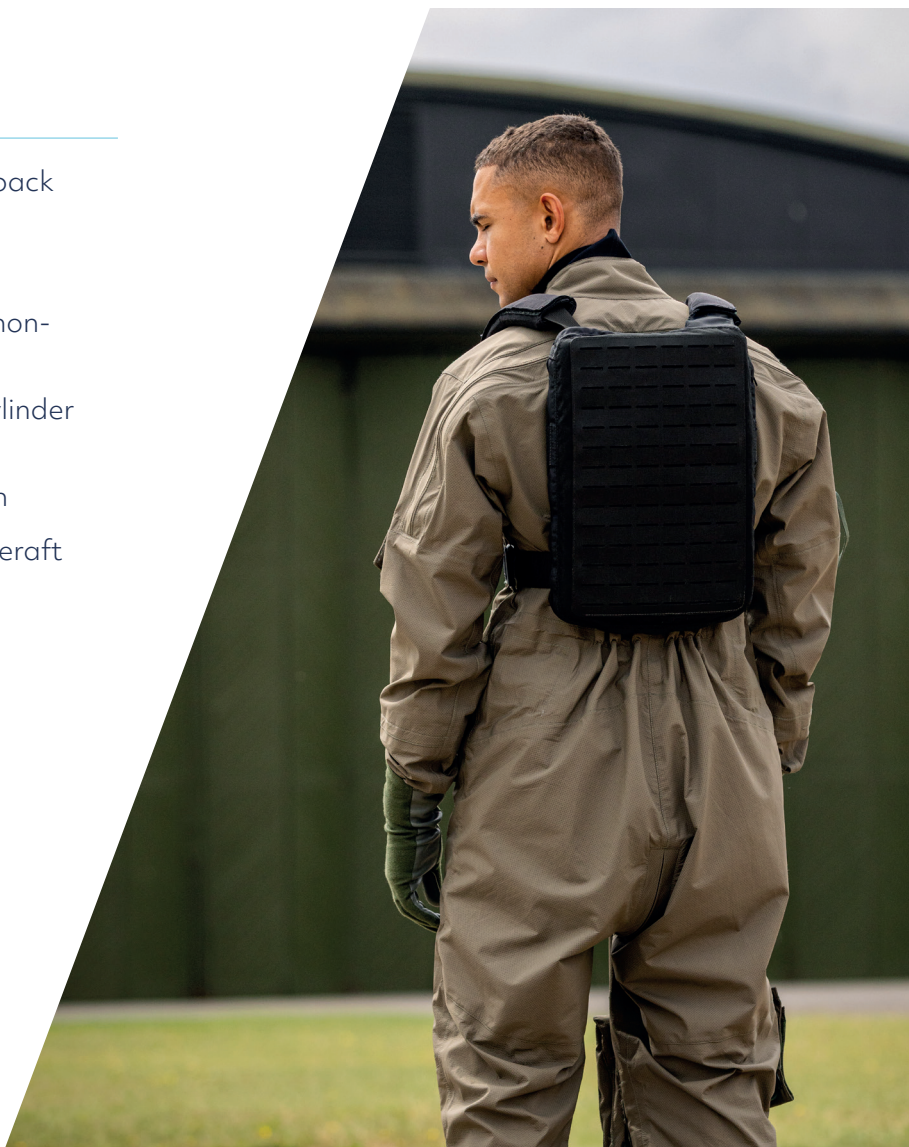

Utilising our certified Aerolite One Single Seat Liferaft (SSLR), Beaufort has innovated the Back Raft. Beaufort's Back-Raft is worn on the pilots or aircrews back and is compatible for use on all types of military helicopters and non-fast jet aircraft during flights over water.

## BENEFITS

- ⦿ Lightweight, robust and ergonomic backpack
- ⦿ Long service life with minimal simplified maintenance regime
- ⦿ Two-stage, manual actuation to prevent non-commanded inflation
- ⦿ Uses zero maintenance low profile twin cylinder CO<sub>2</sub> inflation mechanisms
- ⦿ Derivative of US NAVAIR approved design
- ⦿ Integral retention line to prevent loss of liferaft following inflation
- ⦿ Universal MOLLE integration
- ⦿ Fire Retardant

*“Designed from the tried and tested Aerolite range”*

# BACK-RAFT SINGLE SEAT LIFERAFT

## TECHNICAL DATA

<b>Pockets</b>	Stabilizing water pockets and user deployable sea anchor/drogue
<b>Weight</b>	4.9lbs (2.2kg)
